Stay ahead in AI *in 10 minutes a day.*

Every company, CEO, researcher and lab from the reel, with a direct link to follow each one on **X, LinkedIn, Instagram and Reddit**. Tap any link in this PDF to open the profile.

THE HABIT

Swap 10 minutes of doom scrolling for this feed.

You'll see new AI tools, model launches, research papers and where the industry is moving, straight from the people building it.

How to use it

- [ ] Start with **X**: almost everyone here posts there first.
- [ ] Follow the companies on **LinkedIn** for launches and the leaders for their takes.
- [ ] Join 2–3 subreddits from page 6 for open models and research discussion.
- [ ] Give it **5–10 minutes a day**. Turn on notifications for 5 accounts you care about most.

Every link was checked on 12 Nov 2026. "—" means we found no official profile on that platform, so we didn't guess one. Watch out for fan and parody accounts with similar names.

Communities worth joining

Most companies and people above aren't active on Reddit. These communities are where their releases get discussed first.

r/LocalLLaMA	Open models you can run yourself. Fastest place for new open releases.
r/MachineLearning	Research papers and discussion.
r/OpenAI	Community around ChatGPT and OpenAI news (not official).
r/ClaudeAI	Community around Claude (not official).
r/singularity	Big-picture AI news and debate.
r/MistralAI	Mistral's official subreddit.
r/allenai	Ai2's official subreddit.

Follow, then spend 5–10 minutes a day. That's the whole hack.
